

# **Manufacturer of wind-solar hybrid power generation system in Manchester UK**

## Overview

---

Who makes the best wind turbines in the UK?

Vestas, one of the top wind turbine manufacturers in the world, leads the UK wind turbine market with a total installed capacity of 8.9 GW as of 2024. The company has delivered 2,712 wind turbines to date to provide clean energy across the UK.

Where are wind turbines made in the UK?

The UK's largest wind turbine manufacturer invested GBP 186 million to produce next-generation blades in their facility in Hull in 2023. Siemens Energy continues to support onshore and offshore wind in the UK, producing more than 1,500 offshore wind turbine blades in Hull since its opening in 2016.

Who owns a wind turbine in the UK?

Top owners by capacity: Stat: Foreign firms own 70% of UK wind capacity, but UK pension funds (e.g., LGP) are increasing investments. 6.4. How much does a wind turbine cost in the UK?

.

How big is the UK's wind turbine industry?

The growth of these wind turbine manufacturing facilities rests upon the UK's ambitious renewable energy goal to double onshore wind and quadruple offshore wind capacity by 2030. According to the Blackridge Wind Database, the UK has an onshore wind farm capacity of 15.5 GW and an offshore wind capacity of 14.7 GW as of 2024.
