

MODERNIZATION SOLAR

# **Mexican Solar Base Station Agency**

## Overview

---

What is the first government-level photovoltaic + energy storage project in Mexico?

This is the first government-level photovoltaic + energy storage project in Mexico. We collaborated with CFE (Mexican Federal Electricity Commission) to design and supply the BESS (Battery Energy Storage System) for this project.

Who is the best solar company in Mexico?

Gauss Energy (Mexico) As Mexico's leading domestic solar developer, Gauss Energy continues to pioneer large-scale projects with integrated storage solutions. Their Aura Solar III project (220MW with 80MWh storage) represents the country's most advanced solar-plus-storage facility, achieving 37% better grid utilization.

6. LONGi Solar (China).

Who manufactures solar panels in Mexico?

2. Maxeon Solar Technologies (Singapore/USA) With 93% of Mexico's module production capacity, Maxeon continues to expand its manufacturing presence in the country. Their premium Interdigitated Back Contact (IBC) technology commands premium prices in the commercial and residential segments.

Who is the best solar tracking company in Mexico?

3. Grace Solar (China) As a global leader in solar mounting systems, Grace Solar has made significant inroads into the Mexican market with their innovative tracking solutions. The company's single-axis solar tracking systems have been deployed in over 15 utility-scale projects across Mexico, representing 320MW of capacity.
