

Morocco Casablanca Energy Storage Investment Project

Overview

Morocco is planning to invite bids for a giant power storage facility with a capacity of nearly 1,600 megawatts (MW) within a long-term programme to expand renewable energy sources in its national power network, a newspaper said on Tuesday. How many jobs will a battery energy storage project create in Morocco?

The first phase of the project is expected to create over 2,000 jobs. In terms of energy storage projects, Morocco is actively introducing battery energy storage systems (BESS) to complement renewable energy. Several Chinese companies are involved in this.

What is Morocco's energy storage testbed project?

The projects are spearheaded by the Moroccan Agency for Sustainable Energy (MASEN) and Morocco's national electricity company ONEE. On May 20, 2025, MASEN received financing approval from the World Bank for its "Morocco Energy Storage Testbed Project", aiming to enhance grid stability.

Who will participate in a new energy project in Morocco?

Chinese state-owned enterprises such as PowerChina and China Energy Engineering Corporation (CEEC), which have experience in undertaking new energy power stations and energy storage projects in Morocco, are also expected to participate in the bidding with an EPC plus long-term operation and maintenance model.

How much money will Gotion high-tech invest in Morocco?

The latter will provide an investment of 300 million euros (approximately RMB 2.3 billion) to help Gotion High-tech build a comprehensive project in Morocco covering power batteries, energy storage batteries, and cathode and anode materials. The first phase of the project is expected to create over 2,000 jobs.
