

Morocco has Chinese communications 5g base stations

Overview

Which companies are launching 5G networks in Morocco?

Nokia, Huawei, Ericsson and ZTE. November 2024 update: The opening of the tenders related to the allocation of 5G licences is expected by Q1 2025 whereas the launch of the first 5G network activations in developed cities of Morocco is expected roughly twelve (12) months following the opening of tenders.

Will Morocco launch 5G in 2023?

The general guidelines note for the development of the telecom sector, adopted by the National Agency for Telecommunications Regulation (ANRT) in 2019, specified conditions for the launch of 5G in Morocco in 2023. Morocco is still in the 5G evaluation, testing and trial stage, leaving the launch postponed to a later date.

Does Morocco have 5G?

Morocco has one of the most developed mobile markets in North Africa (mobile penetration was at nearly 133% of its population by 1Q 2022) but the country has yet to introduce 5G as of December 2022. ANRT published an.

Could 700MHz spectrum be suitable for low-band 5G services in Morocco?

Spectrum in the 700MHz band could be suitable for low-band 5G services in Morocco. Spectrum in the 700MHz band was assigned to mobile services as a result of the adoption of the new national frequency plan in December 2017¹⁰ and appears to be free of any existing MNO allocation.
