

New Delhi Energy Storage Container Production Base

Overview

AmpereHour Energy, in partnership with Indigrid and BRPL, delivers a pioneering 20 MW / 40 MWh BESS in South Delhi, enhancing grid reliability, cutting emissions, and setting a new benchmark in clean energy storage solutions. Is Indigrid launching a standalone battery energy storage system in Delhi?

Last week (4 April), IndiGrid, a power sector infrastructure investment trust, announced the commissioning of a 20MW/40MWh utility-scale standalone battery energy storage system (BESS) in Delhi, India's capital territory.

Is India's first regulated utility-scale battery energy storage system online?

India's first commercial regulated utility-scale battery energy storage system (BESS) is now online. The 20MW/40MWh standalone system, developed by IndiGrid, was commissioned in Delhi on April 4.

Why is Indigrid launching a commercial battery storage project?

Marking IndiGrid's entry into commercial battery storage, this milestone project represents a pivotal moment in India's energy transition. The BESS installation is engineered to support renewable energy integration into the distribution grid, enhance grid stability, manage peak demand, and fulfill ancillary power system needs.

Are BESS containers made in India?

BESS Containers by APPL Container are proudly Made in India under the Make in India initiative. These modular, pre-engineered containers are ideal for managing and storing electrical energy efficiently. Designed for seamless deployment across solar, wind, and backup energy systems, they ensure grid reliability and emergency readiness.
