

MODERNIZATION SOLAR

Off-grid pricing for Australian base station folding containers

Overview

What is a containerised Offgrid system?

Power where the grid can't go — delivered in a single, rugged container. MyEnergy designs and builds turnkey off-grid systems inside 10-, 20- or 40-foot containers, pre-wired, factory-tested and ready to run the moment they land on site. What is a containerised off-grid system?

What does a modbox solar container include?

A typical ModBox solar container includes battery storage, inverter setup, internal racking, cabling, ventilation, and secure access. We can also include external solar panel mounting or integrate with your existing array. Can I use a solar container to power other ModBox units?

Absolutely.

What makes a successful off-grid installation?

Load shaving and frequency response. Identifying the correct system selection and capacity is one of the most important factors for a successful off-grid installation. Get this first stage wrong, it won't matter how good your equipment or installation is, it is likely your off-grid experience will not be fantastic.
