

Oman Optical Fiber solar container communication station Hybrid Energy Environmental Protection Power

Overview

What is Oman's largest solar power project?

Commercial operations of Oman's largest utility-scale solar photovoltaic, independent power project, Ibri 2, started in January 2022. Oman Power and Water Procurement Company (OPWP) awarded the project to a consortium of Saudi and Kuwaiti firms, for which Beijing-based Asian Infrastructure Investment Bank (AIIB) loaned \$60 million.

Who is Oman Fiber Optic?

Oman Fiber Optic is an Omani company that specializes in bringing the latest optic fiber technology solutions to its clients. The company is constantly looking for new talent in the manufacturing industry.

What are the objectives of the Oman power project?

The objectives of the Project are to: (a) increase the availability of the renewable power generation capacity and improve the balance between supply and demand during the peak hours in Oman's Main Interconnected System grid which serves Muscat and northern Oman.

Will Oman slash its emissions to 50 percent by 2030?

State-owned PDO which aims to slash its emissions to 50 percent of 2019 levels by 2030, is an early pioneer in large-scale solar power projects in Oman. Oman's integrated oil and gas company OQ is also seeking international partners to replace 40 percent of its three-gigawatt power consumption with renewable energy projects.
