Overview

Can a battery storage project be retrofitted in Portugal?

Published in December, this legal update simplifies the process for retrofitting existing renewable energy projects with battery storage and/or hybrid generation components. Curtailment is no longer a theoretical risk in Portugal.

Is Portugal's renewables sector maturing fast?

Portugal's renewables sector is maturing fast — but the permitting regime hasn't always kept pace. Retrofitting operational assets with battery storage and hybrid technology offers huge potential, but strict regulations have slowed the progress so far.
