Power storage promotion plan

Overview

What is the new energy storage action plan?

The new action plan, grounded in the nation's dual carbon goals, aims to grow the national new energy storage fleet to 180 GW by 2027. It responds to the urgent need for flexible energy regulation amid rapid renewable energy expansion.

What is the energy storage plan?

The plan outlined 21 key measures, including scaling up energy storage applications in power generation and grid infrastructure, accelerating technological innovation, and improving standardization. It also emphasized talent development and enhancing international cooperation in the sector.

Will China develop new energy storage systems between 2025 and 2027?

BEIJING, Sept. 12 -- China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027, amid efforts to support green energy transition and ensure the stability of new-type power systems.

What is a power system action plan?

The Action Plan considers the needs of building a new power system and focuses on three main areas: the power supply side, the grid side, and other emerging application scenarios. On the power supply side, the focus is on large-scale base energy storage, integration with new energy sources, and support for coal-fired power plants.

Power storage promotion plan

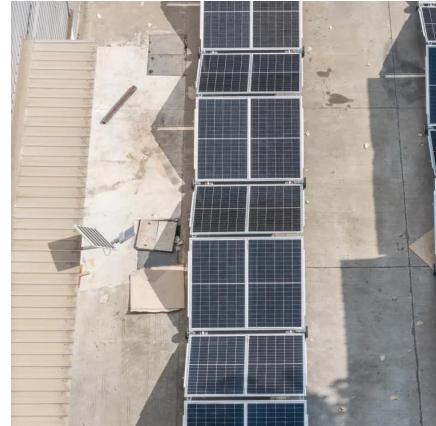

China unveils 3-year action plan to boost new-type energy storage

Sep 12, 2025 · China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027, amid efforts to support green energy transition and ...

China issues action plan to promote manufacturing of new-type energy

On Feb. 10, 2025, China's Ministry of Industry and Information Technology and other seven central government departments jointly announced an action plan for sound development of ...

[China targets 180 GW of new energy storage by 2027 in ...](#)

Sep 12, 2025 · China aims to add more than 100 GW of new energy storage (primarily battery storage, excluding pumped hydro) by 2027, according to a new action plan presented by ...

[China unveils three-year action plan to boost ...](#)

Sep 12, 2025 · The plan outlined 21 key measures, including scaling up energy storage applications in power generation and grid infrastructure, ...

China unveils three-year action plan to boost new-type energy storage

Sep 12, 2025 · The plan outlined 21 key measures, including scaling up energy storage applications in power generation and grid infrastructure, accelerating technological innovation, ...

[Energy Storage Power Station Promotion Planning: A ...](#)

The 5-Pillar Promotion Framework That Actually Converts Educational Storytelling (No PhD Required) Case study: Arizona's 300MW "Solar Battery" project reduced peak pricing by 40% ...

[Eight departments issue documents to promote high-quality ...](#)

Feb 18, 2025 · An action plan is issued, aiming to build a growth engine such as new generation information technology and new energy, and promote the high-quality development of new ...

China unveils three-year action plan to boost new-type energy storage

Sep 12, 2025 · China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027, amid efforts to support green energy transition and ...

2025 New Energy Storage: Policy Supports Long

Jun 19, 2025 · On March 3, the Ministry of Industry and Information Technology held a policy promotion meeting for the high-quality development action plan of the new energy storage ...

Shanghai's Action Plan to Promote High-Quality Innovation ...

The plan states that by 2025, new energy storage will move from demonstration applications to the initial stage of commercial applications and then to large-scale development, and the ...

Action Plan to Boost Energy Storage Manufacturing

Mar 15, 2025 · China's advanced energy storage manufacturing sector is set for a boost after the release of the high-quality development plan of the advanced energy storage manufacturing ...
