

Price of 20kW collapsible containers for European ports

Overview

Container shipping rates fell throughout 2023 but rose sharply in early 2024. The rate of increase has slowed for most routes, although demand is still high especially when shipping from China.

Are global container shipping rates still 46% lower than last year?

Global container shipping rates are still 46% lower than they were in November last year. Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025.

How much does a 40ft container cost?

Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025. Between now and the end of the year, container shipping prices will likely remain soft particularly if the current ceasefire between Israel and Palestine enables more shipping traffic to flow through the Suez canal.

Why is international container shipping on the decline?

Demand for international container shipping remains on the decline although many carriers are attempting to boost prices by adopting General Rate Increases (GRIs) and pushing up Freight All Kinds (FAK) rates. The composite price index fell by 5% between the first and second weeks of November.

What is a collapsible shipping container?

Shippers are demanding improved efficiencies and sustainability throughout their supply chains. COLLAPSECON is the collapsible shipping container pioneering the future of global trade. It's practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions.
