

# Price per square meter of solar tiles in Ljubljana

## Overview

---

In 2024, the average price per square meter for photovoltaic tiles in Ljubljana ranges between €180 and €320. This variation depends on: What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

Are solar tiles a good investment?

Solar tiles have a variety of benefits and drawbacks to take into account in conclusion. On the plus side, solar tiles are attractive, adaptable, and can raise the value of your home. In addition, they are strong, offer clean energy, and can be installed on many roofs.

How long do solar tiles last?

The lifespan of solar tiles is 25 to 30 years. Steel roofing tiles and sturdy, durable glass solar tiles are used to construct solar roofs, which also come with sizeable warranties. Solar shingle installation can take up to a week. However, with routine maintenance, solar tiles can last longer than the typical 25-30 years.
