Refinery uses 150-foot Maseru folding containers

Overview

How many m³ crude oil storage tanks are there?

At present, 100,000 m³ crude oil storage tanks are the main container to storage crude oil all over the world. Storage tanks should not be built on the foundation with different hardness, or within the impact range of active geological fault zone.

Which foundation should be used for crude oil storage tanks?

For some crude oil storage tanks with high wax content, the seal gland should be designed with a variety of foundations including rainproof, wax scraping, secondary seal, etc.

What is a 4fold container?

This container is called the 4FOLD. HCl claims an amazing 75% saving in space as four 4FOLD containers, when stacked, take only the space of a single conventional rigid container. This would mean less cost on transportation of empty containers, their storage, and other associated costs.

What is a foldable container?

Such foldable containers are compatible with the normal ISO-approved TEU or FEU and are strong enough to be placed anywhere on a shipboard stack. Any number of containers from 2 to 5, can be folded and stacked in such a way to form a regular container size for transport or storage.
