

# Replace the rechargeable solar container battery

## Overview

---

Look underneath the fixture for a small panel or battery compartment. If you see screws or a latch, you can usually replace the batteries. Most battery changes can be done in just a few minutes. How do you replace a battery in a solar light?

Lithium-based batteries are commonly used in modern solar lights due to their energy density over twice that of older nickel-based batteries. To replace batteries, open the device's battery compartment, remove old batteries, and align the plus and minus. This process is quick and easy, preserving the life of your solar lights.

How to change battery in solar garden lights?

To change batteries in solar garden lights, follow these steps: turn off the lights, unscrew the top of the light, and switch the light off if necessary. Open the battery housing and follow the steps to change batteries in outdoor solar lights.

How to change battery in solar post light?

You can change the batteries in most solar lights by opening the battery compartment and replacing the old batteries with new, compatible ones.

When should I replace my solar light batteries?

Another smart way to figure out if it's time to replace your solar light batteries: is just to switch them to a different light! Grab the batteries from the solar light that's not performing well and put them into another one that's been lighting up just fine.
