

MODERNIZATION SOLAR

Riyadh EK new solar container battery

Overview

Why is Saudi Arabia launching a battery storage project?

Saudi Arabia aims to generate 50% of its electricity from renewables by 2030. However, renewable energy sources like solar and wind can be unpredictable. The 12.5 GWh battery storage project will solve this issue by storing energy and ensuring a steady power supply. This is very important in Saudi Arabia.

How a 12.5 GWh battery storage project will help Saudi Arabia?

The 12.5 GWh battery storage project will solve this issue by storing energy and ensuring a steady power supply. This is very important in Saudi Arabia. The nation's energy demand is high because of extreme temperatures and heavy electricity use.

What is BYD energy storage & Saudi Electricity Company (SEC)?

These systems help smooth energy delivery, keep costs manageable and cut dependency on fossil fuels. Now, BYD Energy Storage and Saudi Electricity Company (SEC) push this technology into new territory. Their partnership is set to deliver a world-first: 15.1GWh of energy storage across Saudi Arabia.

How will Saudi Arabia's new energy grid work?

The new systems will be installed across five different sites in the Kingdom and linked directly to the national transmission grid. The approach reflects Saudi Arabia's strategy for an optimal energy mix, balancing conventional power with solar, wind and storage to create a more flexible and resilient grid.
