Riyadh Energy Storage Power Station Project

Overview

Why is Saudi Arabia launching a battery storage project?

Saudi Arabia aims to generate 50% of its electricity from renewables by 2030. However, renewable energy sources like solar and wind can be unpredictable. The 12.5 GWh battery storage project will solve this issue by storing energy and ensuring a steady power supply. This is very important in Saudi Arabia.

How a 12.5 GWh battery storage project will help Saudi Arabia?

The 12.5 GWh battery storage project will solve this issue by storing energy and ensuring a steady power supply. This is very important in Saudi Arabia. The nation's energy demand is high because of extreme temperatures and heavy electricity use.

Is Saudi Arabia a leader in energy storage?

To date, Saudi Arabia has achieved significant milestones in the energy storage sector. With the official launch and operation of the Bisha Energy Storage Project, Saudi Arabia has successfully entered the ranks of the top ten global energy storage markets.

Will Saudi Arabia have energy storage projects in 2025?

According to Saudi Arabia's plans, the installed capacity of energy storage will show a rapid growth trend. In the short term, Saudi Arabia plans to have 8GWh of energy storage projects in operation by 2025, and this figure will increase to 22GWh by 2026.
