

Selling solar power systems in Stockholm

Overview

Why is solar energy important in Sweden?

Increasing energy demand: Sweden's growing energy demand, coupled with the need to transition to clean and sustainable energy sources, presents substantial opportunities for the solar energy market. Solar power can play a vital role in meeting the increasing electricity needs of households, businesses, and industries.

Is solar power possible in Sweden?

In Stockholm, Sweden (latitude: 59.3287, longitude: 18.0717), solar power generation is feasible but varies significantly across different seasons. The average energy production per day for each kilowatt of installed solar capacity is as follows: 6.18 kWh in summer, 1.54 kWh in autumn, 0.51 kWh in winter, and 4.26 kWh in spring.

How will the Swedish Solar PV market expand?

The expansion of the Swedish solar PV market is in focus when Solkompaniet and French Bouygues Energies & Services enter into a partnership. This collaboration aims to meet the market's demand for large-scale solar parks, contributing to the sustainable energy transition in Sweden.

How to optimize solar generation in Stockholm?

Assuming you can modify the tilt angle of your solar PV panels throughout the year, you can optimize your solar generation in Stockholm, Sweden as follows: In Summer, set the angle of your panels to 42° facing South. In Autumn, tilt panels to 61° facing South for maximum generation.
