Senegal 60kwh solar container lithium battery solar container energy storage system integrated solar storage device

Overview

Which energy company is building a lithium ion battery storage system in Senegal?

Renewable energy company Africa REN has started construction of the Walo Storage project – a lithium-ion battery energy storage system situated in northern Senegal.

How will West Africa benefit from a solar power plant?

Furthermore, the project will include the construction of small solar photovoltaic plants, injecting 16 MW of solar energy into the grid while mitigating approximately 26,000 tons of CO2 emissions per year. The \$34.8 million battery-storage project serves as the first of its kind in West Africa.

Who is constructing the energy storage unit?

The project is being fully developed by Africa REN while construction of the storage unit will be carried out by engineering company Eiffage Energie Systèmes RMT.

What can Walo storage do for Bokhol?

In order to complement and intensify our local impact, Walo Storage is committed to : Build three mini-solar power stations to supply the pumping stations dedicated to farmers. Provide the municipality of Bokhol with a commercial vehicle. Create a track enabling farmers and stockbreeders to reach the agricultural zone.
