

Serbian commercial energy storage company

Overview

What is storenergy?

Welcome to StorEnergy, where we're reshaping the future of energy storage. Our groundbreaking thermal energy storage solution, powered by recycled ceramics, embodies our commitment to innovation, sustainability, and cost-efficiency. StorEnergy is the answer to reliable and eco-friendly energy storage.

How has CIEMAT transformed energy storage & delivery?

We've initiated several groundbreaking projects both domestically and internationally. Our most notable undertaking is the 3 MWh thermal storage capacity system at the CIEMAT institute in Spain. This has served as a valuable test bed for our technology, reinforcing our belief in its potential to transform energy storage and delivery.

What is thermal energy storage?

Our patented thermal energy storage technology harnesses the power of recycled ceramics, resulting in an efficient, affordable, and environmentally-friendly energy solution. The ceramic material is heated up to 900 degrees Celsius, after which the stored heat can be dispatched on demand.
