

# **Singapore Energy Storage Container Power Station Project**

## Overview

---

What is Singapore's biggest battery storage project?

Singapore has surpassed its 2025 energy storage deployment target three years early, with the official opening of the biggest battery storage project in Southeast Asia. The opening was hosted by the 200MW/285MWh battery energy storage system (BESS) project's developer Sembcorp, together with Singapore's Energy Market Authority (EMA).

What is Singapore's largest energy storage system?

In Singapore, we operate Southeast Asia's largest energy storage system. The 326MWh system on Jurong Island supports the country's growing deployment of solar energy, while enhancing grid reliability and energy supply security. Sembcorp Energy Storage System in Singapore.

What is Singapore's first utility-scale energy storage system?

Singapore's launch of its first utility-scale Energy Storage System represents a landmark step towards sustainability and improved energy resilience. Developed by the Energy Market Authority (EMA) and SP Group, this project features two test-bed installations with a total storage capacity of 4.4 MWh, sufficient to power hundreds of homes for a day.

What is Sembcorp energy storage system?

. . Commissioned in six months, the Sembcorp Energy Storage System (ESS) is Southeast Asia's largest ESS and is the fastest in the world of its size to be deployed. The utility-scale ESS will support active management of electricity supply and demand for grid stability.

## Singapore Energy Storage Container Power Station Project
