

Solar Air Conditioning in Pristina

Overview

Will Termokos build a solar thermal plant in Prishtina?

Termokos is receiving applications until the end of this month from potential contractors, for the first lot. It envisages the construction of a 30 MW solar thermal plant near the village of Shkabaj (Orlović). The facility in Obiliq (Obilić) municipality is for the district heating system in Prishtina.

How long does it take to build a solar thermal system in Kosovo?

The estimated time for completion is 30 months plus a six-month commissioning phase. After several years of preparation, Kosovo* is moving ahead with the largest solar thermal project for district heating in the Western Balkans. The operator, Termokos, is owned by the Municipality of Prishtina, the capital city.

What is solar air conditioning?

This technology represents a significant step towards sustainability in HVAC (Heating, Ventilation, and Air Conditioning) solutions. Solar air conditioning systems typically consist of solar panels, thermal collectors, heat exchangers, and absorption chillers or heat-driven compression systems.

Who owns solar4kosovo 2 – solar district heating?

The operator, Termokos, is owned by the Municipality of Prishtina, the capital city. They secured most of the funds for Solar4Kosovo 2 – Solar District Heating through the European Union's Western Balkans Investment Framework (WBIF), Germany's KfW Development Bank and the European Bank for Reconstruction and Development.
