## Overview

---

What is a BESS battery energy storage system?

A BESS (Battery Energy Storage System) battery system is very necessary in nowadays. It can supply electricity for daily use during power failures. The system can also store grid energy, especially renewable energy. The cost savings from this could be passed on to customers.

What is a Bess container?

BESS containers are more than just energy storage solutions, they are integral components for efficient, reliable, and sustainable energy management. BESS containers are designed for safety and scalability. Their ability to be stacked and combined allows for customization according to project size.

Where is Bess located?

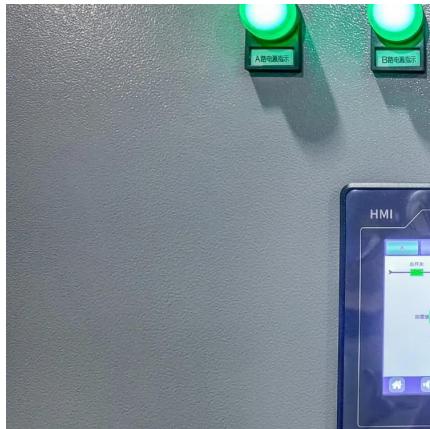

1. Address: 1F, Building 2, No. 1876, Chenqiao Road, Fengxian District, Shanghai, China 2. Phone: 008613816499542 3. Email: [email protected] China's leading BESS company, dedicated to developing the best battery energy storage system and improve the efficiency of renewable energy storage.

What is a containerized energy storage system?

The Containerized energy storage system refers to large lithium energy storage systems installed in sturdy, portable shipping containers, which usually range from 5ft, 10ft, 20ft, and 40ft, and mainly focus on 50Kwh to 10Mwh.
