

# **Solar container battery cabinet functions divided into ESS power base station**

## Overview

---

What is Sunway ESS battery energy storage system (BESS)?

Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects.

What is soliswatt ESS battery energy storage system (BESS)?

Soliswatt Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects.

What is a containerised energy storage system (BESS)?

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes. For installation manual, technical datasheet, inverter adjustment/testing or configuration, please send us inquiry.

How ESS works?

The "electricity quality" to maintain the grid frequency and voltage, which was handled by the increase/decrease of generator output power, and the voltage change with a tap changer in transformer, is now attained by charging/discharging lithium-ion batteries utilizing ESS.
