

Solar glass production in the United States

Overview

Who makes advanced solar glass?

Architectural glass specialist NSG Group has started production of advanced solar glass at its renovated facility in Ohio. This new step strengthens the strategic collaboration with First Solar , a photovoltaic technology company in the United States.

Can a glass factory be repurposed to produce 4 GW of solar glass?

The company has selected a factory site in the United States, with plans to repurpose a former glass manufacturing facility to produce 4 GW of solar glass per year. It said it plans to partner with a US glass manufacturer, bringing glass manufacturing expertise, purchasing power for equipment and raw materials, and in-house engineering capability.

Why is NSG launching a new solar glass production line?

January 2025: NSG Group has commenced operations of a new solar glass production line in the United States, strengthening its position in the solar photovoltaic glass market. This development is expected to enhance the supply of high-quality solar glass, supporting the growing demand in the renewable energy sector.

Does NSG make solar glass?

NSG Group has begun production of advanced solar glass at its renovated Ohio facility.
