

Solar power station energy storage fraud

Overview

Are solar energy & battery storage solutions a scam?

The solar industry has grown rapidly in recent years, helping thousands of homeowners reduce their energy bills and reliance on the grid. However, with this growth comes an unfortunate rise in scams targeting those interested in solar energy and battery storage solutions.

Are solar panels a scam?

Solar panel scams target homeowners interested in installing solar energy systems. They involve scammers making false promises or tricking you into paying for services you'll never receive. Recently, the FTC also issued an alert to warn consumers about solar power scams, such as free solar panels or exaggerated savings.

What should I do if I suspect a Solar scam?

Report Suspicious Activity – If you suspect a scam, report it to Trading Standards, Citizens Advice, or Action Fraud UK to help prevent others from falling victim. While solar power is a fantastic investment for reducing energy costs and improving sustainability, it's essential to stay informed and protect yourself against solar scams.

Why do people complain about solar companies?

sumer complaints about a small number of unscrupulous solar companies. People complain that they were deceived about costs and savings, misled about loans an
