

Solar power station for home in Albania

Overview

How much does a solar power plant cost in Albania?

In April 2025, Albania's Ministry of Energy and Infrastructure unveiled plans to construct a 3.3 MW solar power plant on 5.2 hectares of land in Korça. The project, estimated to cost around 2.7 million euros, is set to be completed in 12 months. The Korça solar plant is part of a broader strategy to boost Albania's renewable energy capacity.

What are Albania's new solar projects?

These solar projects are expected to add 240 MW of capacity, significantly enhancing the country's renewable energy portfolio. The French renewable energy company Voltalia has announced plans to build new energy projects in Albania, including the Karavasta and Spitalla solar parks.

Where is Albania's second largest photovoltaic plant?

The company laid the cornerstone late last year for the 100 MW solar power system in the west of Albania. The site is near the port city of Durrës. One other PV plant is planned for expansion to 100 MW. Now another project of the same size is racing for the position of the country's second-largest photovoltaic facility.

What is the largest solar power plant in Albania?

In late 2023 the 140MW Karavasta solar power plant was completed, having taken Voltalia of France 15 months to build, it is the largest in Albania to date. A 100 MW solar power project called Spitalla in Durrës area is planned to be built next. Albania has enormous potential for electric energy from wind power.

Solar power station for home in Albania

[WBIF Solar Power Plant - Belshi, Albania](#)

Mar 9, 2025 · A ceremony took place in Albania, 22 July 2025, to sign the agreement to build a new solar photovoltaic power plant at Belshi. The EUR42 million project is co-financed by an EU ...
