Southern Europe 5G communication tower base station project

Overview

What is the European 5G Observatory?

The European 5G Observatory tracks progress in 5G infrastructure deployment across the EU and other regions worldwide according to base stations deployment, edge nodes and infrastructure sharing agreements. Source: IDATE estimates and regulators' data. Reporting period: at December 2024. Source: IDATE estimates and regulators' data.

How does the European 5G Observatory inform the digital decade report 2025?

The European 5G Observatory informs the Digital Decade Report 2025 by monitoring progress towards the EU's 2030 digital connectivity targets. Following the publication of the White Paper "How to master Europe's digital infrastructure needs?

" by the European Commission, there have been several developments in EU policy.

What is the European Commission's 5G strategy?

From a policy perspective, the European Commission has placed 5G at the core of its competitiveness strategy, closely linking coverage availability, timely spectrum assignment, and vendor diversity to productivity gains and strategic autonomy.

Who supports the 5G infrastructure PPP?

The 5G Infrastructure PPP and its website are supported by the 6GStart Project for the period May 2022 - Sept 2024. 6GStart is a support action project under the Horizon Europe Research Programme of the European Union. For more information visit the project website
