Southern European solar shingled module prices

Overview

Is the European solar market in motion?

Expert analysis: the solar market in motion With a PMI of 70 and tightening module supplies, the European solar market stands at a pivotal moment. Rising prices for P-type and Full Black modules, driven by diminishing inventories, suggest supply constraints will linger into Q3, especially as global demand intensifies.

Why did solar module prices rise in May 2025?

In May 2025, shifting market dynamics saw solar module prices continue to rise, with supply constraints and firm demand putting upward pressure on pricing. In contrast, inverters trended lower, highlighting diverging developments across the PV value chain.

What are the most popular solar module brands?

JA Solar took the lead among the most popular solar module brands at sun.store sales. Hybrid inverters: Deye leads with momentum In the hybrid inverter category, There was slight movement among the most popular hybrid inverter brands. On-grid inverters: Huawei continues to dominate the on-grid inverter market in May, with Sungrow closing in:
