Who is polar Bess?

Polar Bess specializes in advanced battery energy storage systems, enhancing grid resilience and promoting renewable energy. Established in 2024, we deliver scalable solutions for the evolving energy sector, driving sustainable innovation and large-scale project execution.

What does polar BESSs do?

At Polar Bess, we specialize in advanced battery energy storage systems, enhancing grid resilience and promoting the global shift towards renewable energy sources with our cutting-edge technology and expertise. Innovative battery energy storage systems enhancing grid resilience and supporting renewable energy initiatives.

Why do we need a Bess system?

By doing so, it ensures that energy resources are utilized more efficiently, minimizing waste and improving the overall efficiency of energy production and distribution. The BESS also offers significant operational flexibility, allowing it to adapt to varying energy demands and supply conditions quickly and effectively.

Where is the 10MW Bess project located?

The 10MW BESS will be strategically located in SE3, helping to stabilize the grid by providing ancillary and balancing services across frequency markets. "We are excited to deliver this project to our customer," said Magnus Häggström, Chief Commercial Officer at Helios Nordic Energy.
