

Supplier of fast charging mobile energy storage containers for subway stations

Overview

Who is Hoston EV charger & energy storage system?

HOSTON committed to becoming the world's leading supplier of EV charger and energy storage system solutions. With years of research and production experience, from EV chargers to commercial energy storage system, HOSTON have been developing new solutions to meet market challenges.

What are the solutions for EV charging?

Solutions: 1. We provide turnkey energy storage system to upgrade existing charging station and help lower costs. 2. We can OEM packs and integrate it to your EV charger unit to create a all-in-one charger with built-in battery system.

Why should you choose a mobile energy storage charging company?

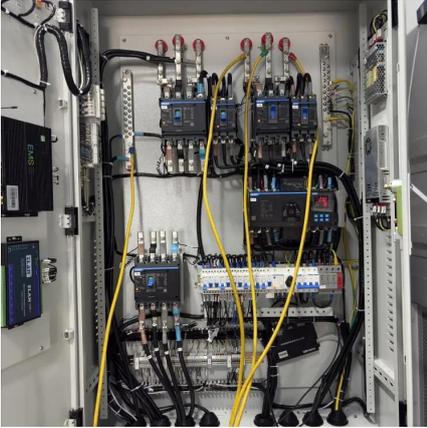

1. First-mover advantage in globalization: As the world's earliest exporter of mobile energy storage charging products, we serve over 40 countries with 68% of business originating overseas. Our customizable solutions adapt to regional needs, establishing a competitive barrier. 2.

What is charge Qube?

With its robust, adaptable design, Charge Qube is the definitive solution for businesses looking to future-proof their energy infrastructure, reduce emissions, and embrace the benefits of sustainable energy storage and high-performance EV charging. Key Features & Configurations
