

Ukraine solar Glass Project

Overview

Why is there no modern glass production in Ukraine?

Lack of modern glass production in Ukraine is explained by the manufacturers' business logic – that plants are supposedly built in locations where there is market, and raw material, and profit. The numbers stated above and facts mentioned below indicate otherwise.

What will novasklo do for Ukraine?

NovaSklo will be the first plant in Ukraine capable of meeting demand while delivering products to international quality standards. Our facility will unlock the full growth potential of the country's glass industry. Our partners are global leaders in production line design, energy-efficient technologies, and workforce training.

What is the horn glass project?

The project is initiated by EFI Group, a Ukrainian investment company, in partnership with Germany's leading equipment manufacturer HORN Glass Industries, with support from UkraineInvest and the Ministry of Economy of Ukraine. The company will create over 300+ jobs in its first year of operation.

Why is establishing an independent Ukrainian manufacturer important?

Ukraine's post-war reconstruction is a crucial stage of the country's economic stabilization and development. Establishing an independent Ukrainian manufacturer is a critical step toward the comprehensive rebuilding of residential, industrial, and infrastructure assets.
