What is the high performance pure sine wave power inverter?

The High Performance Pure Sine Wave Power Inverter is your affordable necessity without sacrificing performance. With Magnetic ring installed to reduce interference. You can run high powered devices such as computers and TVs from your car, four wheel drive (4WD), truck, caravan, and boat battery.

What is a high power 50kW grid tie solar inverter?

High power 50kW grid tie solar inverter converts 200-820V DC to 3 phase 380 volt, 460 volt and feed the power into the grid, high reliability due to perfect protection function, powerful communication interfaces, easy operation and installation.

How long does a solar inverter last?

No battery storage system, pure sine wave AC output, wide input voltage can be set according to customers' requirement. Powerful protection functions make its service life up to 15-20 years or more. These solar inverters provide a reliable source of power in areas without access to the grid or as a backup power supply.

What is a pure sine wave output?

Pure sine wave output. With a good dynamic response of less than 50MS, the waveform distortion rate is smaller, with higher conversion efficiency and stable output voltage. Adopts a black pure aluminum radiator, which confirms the best radiating performance. Powerful data display function.
