Vietnam high voltage inverter

Overview

What is the voltage range of INVT inverters?

INVT's series of universal and medium voltage inverters have a voltage range from 220 V to 10 kV. They control synchronous and asynchronous motors and have built-in servos, with capacities ranging from 0.4 kW to 10000 kW.

Where are PV inverters made?

The plant specializes in grid-tied and hybrid inverters. GoodWe, a China-based PV inverter manufacturer, has started operations at its first overseas manufacturing plant in Haiphong, Vietnam. The facility covers approximately 14,800 square meters and will initially specialize in the production of grid-tied and hybrid inverters.

How many GW is a Phase 1 production plant in Vietnam?

"The factory is expected to achieve an annual capacity of approximately 5 GW once Phase I's production lines reach full operational status," a company spokesperson told pv magazine. The company said it expects that establishing production in Vietnam will enhance its price competitiveness in global markets.
