

# **Vigorously promote the construction of energy storage projects**

## Overview

---

What is the new energy storage action plan?

The new action plan, grounded in the nation's dual carbon goals, aims to grow the national new energy storage fleet to 180 GW by 2027. It responds to the urgent need for flexible energy regulation amid rapid renewable energy expansion.

Why is energy storage important?

Officials from the National Energy Administration emphasized that energy storage is now essential for stabilizing the power system and meeting growing electricity demands. The plan also comes at a critical moment.

Can new energy storage promote green and low-carbon development?

This year's government work report noted the development of new energy storage as one of the measures to promote green and low-carbon development. New energy storage refers to energy-storage technologies other than conventional pump storage. It offers advantages such as a short construction period, flexible layout and fast response.

What is new energy storage?

New energy storage, or energy storage using new technologies such as lithium-ion batteries, liquid flow batteries, compressed air and mechanical energy, is an important foundation for building a new power system in China, enjoying the advantages of quick response, flexible configuration and short construction periods.

## Vigorously promote the construction of energy storage projects

---

### [Three departments vigorously promote new energy storage ...](#)

Sep 29, 2025 · A national level plan aimed at increasing the scale of China's new energy storage to over 180 million kilowatts within the next three years has officially been implemented, ...

### **China issues action plan to promote manufacturing of new-type energy**

On Feb. 10, 2025, China's Ministry of Industry and Information Technology and other seven central government departments jointly announced an action plan for sound development of ...

### **China unveils 3-year action plan to boost new-type energy storage**

Sep 12, 2025 · China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027, amid efforts to support green energy transition and ...

### [Legal Issues on the Construction of Energy Storage Projects ...](#)

These opinions propose accelerating technological innovation in new energy storage, establishing and improving supporting mechanisms, and achieving high-quality

development of new energy ...

### [China unveils measures to bolster new-type energy storage ...](#)

Feb 17, 2025 · Chinese authorities unveiled several measures on Monday to promote the new-type energy storage manufacturing sector, as part of efforts to accelerate the development of ...

### [China emerging as energy storage powerhouse](#)

May 23, 2024 · China's power storage capacity is on the cusp of growth, fueled by rapid advances in the renewable energy industry, innovative technologies and ambitious government policies ...

### [National Energy Administration: Strengthen the research and ...](#)

Nov 4, 2022 · At the same time, we will actively promote pilot demonstrations of wind, light, and gas multi-energy complementary projects, promote the integrated development of natural gas ...

## [China targets 180 GW of new energy storage by 2027 in ...](#)

Sep 12, 2025 · China aims to add more than 100 GW of new energy storage (primarily battery storage, excluding pumped hydro) by 2027, according to a new action plan presented by ...

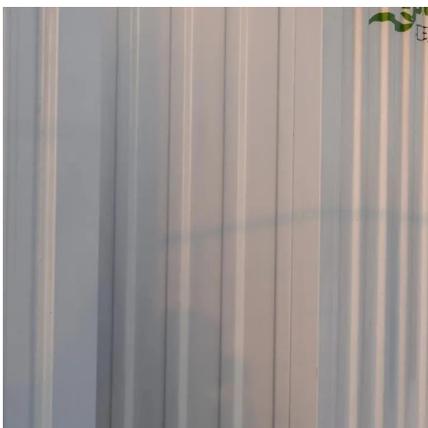

## [China Focus: New energy-storage industry booms amid ...](#)

May 24, 2024 · Recognizing the diverse scenarios and needs in power systems, China is encouraging technological innovation in new energy storage, achieving breakthroughs across ...

## [China emerging as energy storage powerhouse](#)

May 23, 2024 · China's power storage capacity is on the cusp of growth, fueled by rapid advances in the renewable energy industry, innovative ...

## [China to boost new-energy storage manufacturing industry, ...](#)

Feb 18, 2025 · The plan will also accelerate the construction of smart factories in relevant industries. It will promote the digital transformation of key processes in new-energy storage ...
