

West Asia Energy Storage Power Supply Procurement

Overview

What is the largest energy storage procurement in China's history?

The tender marks the largest energy storage procurement in China's history. In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids were opened on December 4.

How much does energy storage cost in China?

In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids were opened on December 4. The tender attracted 76 bidders, with quoted prices ranging from \$60.5/kWh to \$82/kWh, averaging \$66.3/kWh.

How will powerchina select a qualified supplier for energy storage system equipment?

According to the previously announced plan by PowerChina, this tender aims to select qualified suppliers for energy storage system equipment for 2025-2026. After the selection, a framework agreement will be signed.

Can the ASEAN Power Grid help decarbonize Southeast Asia?

In Northeast Asia, both geography and geopolitics makes such efforts more challenging. The realization of the long-awaited ASEAN Power Grid can both accelerate and lower the cost of decarbonization of Southeast Asia, as detailed in this report by Asia Clean Energy Coalition.
