

# West Asia outdoor wind power base station manufacturers

## Overview

---

Which wind turbine manufacturers dominate the world?

As the world accelerates its shift toward clean energy, the competition among wind turbine manufacturers is at an all-time high. Leading wind power turbine manufacturers like Vestas (Denmark), Siemens Gamesa (Spain), Goldwind (China), and GE Vernova (France) continue to dominate global markets with massive installed bases and expanding order books.

Who makes wind turbines?

German firms such as ENERCON and Nordex, as well as China's Mingyang Smart Energy and Envision Energy, are also key players shaping the future of wind power. This ranking highlights the top 15 makers of wind turbines worldwide, according to their installed capacity as of October 2025. 1.

Which countries are focusing on solar PV & wind energy?

Leading this charge are India, China, and Japan, with a strong focus on solar PV and wind energy. Wind energy is a rapidly growing renewable electricity source pivotal to the global energy transition. Both onshore and offshore wind farms use arrays of wind turbine generators (WTGs) to generate clean, sustainable power on an ever-increasing scale.

Who is the largest wind turbine manufacturer in China?

Goldwind is the largest wind turbine manufacturer in China and third in the world in terms of installed capacity. The Chinese manufacturer has installed more than 138 GW of wind energy around the world.
