

Where is the address of Cambodia s communication network base station

Overview

Is Cambodia lagging behind in telecommunications development?

Compared to the United States, Cambodia is massively lagging behind in the development of telecommunications. Under the country code +855, there were a total of 21.08 million connections in 2023. Among them were 21.05 million mobile phones, which corresponds to an average of 1.2 per person. In the US, this figure is 1.1 mobile phones per person.

Does Cambodia have a mobile network?

This dataset visually presents comprehensive maps detailing the extent of the mobile network coverage of Cellcard, Metfone, and Smart across Cambodia. This network map shows the location of available networks in the area where people live, work, and where they need to communicate or use the Internet.

Where can I find information about telecommunication updates in Cambodia?

The data is sourced from the Telecommunication Regulator of Cambodia, and covers updates from January 2022 to August 2025. Open Development Cambodia organization (ODC) has converted this data from a PDF format to a CSV tabular format, making it accessible for free download in both Khmer and English.
