

# **Yamoussoukro energy storage container integrated machine manufacturer**

## Overview

---

What are the features of a containerized energy storage system?

The containerized energy storage system includes: BESS, PCS, PDS, STS, EMS, auxiliary power distribution system, air conditioning system, and fire protection. ● Available in Wall, Rack, Stacking, and Wheeled styles. ● APP cloud communication. ● Three output modes. ● Four charging modes.

What is energy storage container?

Energy Storage Container is an energy storage battery system, which includes a monitoring system, battery management unit, particular fire protection system, special air conditioner, energy storage converter, and isolation transformer developed for the needs of the mobile energy storage market.

What is CIMC TLC|RYC energy storage container?

CIMC TLC|RYC Energy Storage Container can integrate energy storage converters and energy management systems according to customer needs. It has the characteristics of simplified infrastructure construction cost, short construction period, high degree of modularization, and easy transportation and installation.
